Release Date: October 24, 2017

EMT Version 1.4.1 is compatible with Winrecs 294.2

EMT Editor

0000   **When creating a Field Condition and using the Operator LIKE, wildcards** * (asterisk) **and ? (question mark) can now be used when referring to the values.**

? (question mark) wildcard represents a character at a specific position

* **(asterisk) wildcard represents any number of characters**

If the value is an exact match, it is not necessary to include a wildcard in the value
