Release Notes for WinRecs Version 298.0.0

Release Date: March 11, 2021

2021 CIHI Fiscal Edits and Table Updates are included in this fiscal release.

Problem fixes and enhancements have been included as outlined in the Release Notes.

This release is cumulative only after the most recent WinRecs Update has been applied however the update must be applied on minimal version **297.0.0** or greater.

Important:

Please note that WinRecs Version 298.0.0 contains a Fiscal Grouper Engine update. Clients with the CACS and CMG+/ CACS groupers please ensure all users can see the grouper information within the abstracting modules after applying this update. For clients with CACS and CMG+/CACS groupers you must batch group data prior to submitting Period 01 for Fiscal Year 2021.

After all Fiscal Releases and Service updates have been applied coders should check to ensure they can see grouper values in the visits. For Citrix clients this should be confirmed on all Citrix IP addresses.

For additional information on this, or previous releases, contact MED2020 Customer Support at support@med2020.ca.
