Release Notes for WinRecs Version 298.2

Release Date: September 30, 2021

Problem fixes and enhancements have been included as outlined in the Release Notes as well as the latest Institution Table updates.

This exe patch is cumulative only after the most recent WinRecs Update has been applied however the update must be applied on minimal version 298.0.0 or greater.

Important:

After all Fiscal Releases, Service updates and exe patches have been applied coders should check to ensure they can see grouper values in the visits. For Citrix clients this should be confirmed on all Citrix IP addresses.

For additional information on this, or previous releases, contact MED2020 Customer Support at mailto:support@med2020.ca.

Ticket Details

WinRecs2\Reporting

PR_15409 **Aboriginal fields BB7, BB7a-BB7c missing in OMHRS views**

In the OMHRS_VR and OMHRSbyElementID_VR, these fields were added:
AboriginalFirstNation_BB7a,,AboriginalFirstNationDesc_BB7a,AboriginalMetis_BB7b,,AboriginalMetisDesc_BB7b,AboriginalInuit_BB7c, and AboriginalInuitDesc_BB7c

WinRecs2\Abstracting\DAD

PR_15470 **Calculation Field: 'Total Duration of Labor'**

Two fields called "Total Duration of Labour" and "Total Duration of Labour in Hours" has been added to the Inpatient abstract. These are calculation fields from Start of First Stage Date/Time to Delivery Date/Time.

PR_15561 **Waiting on 3M support - Fix in 298.2 - Reproductive Fields Not Enabling Upon 3M Exit**

For sites not using the 3M Verify option, Reproductive fields were not enabling after entering Obstetrical codes in the 3M Codefinder and exiting forcing F11 verification to enable the Reproductive fields. This issue has been resolved.

PR_15681 **Manitoba ALC Reason Code/diagnosis code edits**

Manitoba Clients: Validation edits have been added to ensure the correct ICD10 Diagnosis code corresponds with ALC Reason code entered.

WinRecs2\Abstracting

PR_15474 **Incorrect Edit for U073 and U074**

When Diagnosis code U073 was entered as the main with Dx Prefix 7 and U074 was entered as the second occurrence the following hard edit was generating:
If Diagnosis Code U074 is recorded, then there must be at least one other Diagnosis Code from A00-T98 or U073 with the Diagnosis Prefix 7.

This edit will no longer generate for the above scenario.

WinRecs2\Administration\Lookup Maintenance

PR_15616 **Fiscal 2021 DAD Institutions and Types V1.5 Jun 2021 and Fiscal 2020 DAD Institutions and Types V1.15 Jun 2021 Updates**

The Fiscal 2021 DAD Institutions and Types V1.5 Jun 2021 and Fiscal 2020 DAD Institutions and Types V1.15 have been included in this update.

PR_20214 **Fiscal 2021 DAD Institutions and Types V1.6 Aug 2021**

Fiscal 2021 DAD Institutions and Types V1.6 Aug 2021 update is included in this release.

PR_20225 **Fiscal 2021 DAD Institutions and Types v1.7 Sep 2021**

Fiscal 2021 DAD Institutions and Types v1.7 Sep 2021 has been included in this release.

WinRecs2\Abstracting\NRS

PR_15667 **Field Description Update - NRS**

NRS field "Intensity of Pain" description for code value 3 has been update from Moderate Assistance to Moderate.

WinRecs2\Utilities\Abstract Queue

PR_20218 **Update Queue Capacity Abstract Que**

When abstract queue went over 500 saved records in the Abstract Queue, the storage capacity was exceeded and no additional records were saved.

The abstract queue has been updated to allow over 500 records to be saved and displayed

WinRecs2\Utilities\CIHI Submission

PR_20220 **Submission File not Assigning Batch Type "B" In Last Batch**

An issue was reported where the Submission Control Header was not assigning the last batch as type "B". This happened in the DAD submission file for **All Care types** after a partial Covid submission for the same period had already been created. This issue has been resolved.
