Release Notes for WinRecs Version 2025.01

Release Date: March 20, 2025

The 2025.01 Fiscal Release includes fixes for reported issues as well as enhancements.

This release is cumulative only after the most recent WinRecs Update has been applied however the update must be applied on minimal version 2024.01 or greater.

For those sites with CMG and CACS Groupers, the 2025.01 Release contains a Grouper Engine update. Fiscal 2025 DAD and NACRS Level 2/3 abstracts must be batch grouped prior to submitting 2025 Period 01 files to CIHI. A warning message indicating "No Grouper value…" will display should the record not be grouped with the current grouper year.

WinRecs3\Modules\Abstracting\[DAD] AbsCare Inpatient

PR_25060 **Transfer Worksheet: Warning for Transfer Overlapping Dates**

On Transfer Worksheet a warning will generate when Transfer Dates overlap.

PR_25069 **Transfer Worksheet: Transfer Days Calculating Incorrectly when Times Entered**

The length of stay (days) on the Patient Service Transfer Worksheet is derived by subtracting the start date of one service from the start date of the immediately subsequent service or, for the last service to which the patient was
assigned, subtracting the start date of that service from the separation date. If consecutive start dates are the same, the LOS = 0 for that service transfer. The LOS days were calculating incorrectly when transfer times were entered. This has been corrected, and the calculation will only look at start and end dates.

PR_25146 Responsibility for Payment 01 and HCN Province

Responsibility is 01-Province/Territorial Responsibility and HCN Province is not the province of submitting Facility, a hard error will not generate instead of a warning.
