Ticket Details

[WinRecs3\Modules\Clinical](#)

PR_24995 Multiform values no longer displays when enter to next field

The Multiform Occurrence Count Headers displayed on main grid are disabled. On main grid must click on Bookmarks Bar or Section Header to bring you into multiform to enter data.

[WinRecs3](#)

PR_25128 First log on close all window panes by default

When user logs on to WinRecs for first time, WinRecs will not display window panes. Each User will select the windows to view. In the option View Menu User will only see window panes for modules they have access rights to.

PR_25439 Residence Code Default

WinRecs will now default the residence code when it is blank but postal code is present.

PR_26841 Right click must select Paste displays different options

When copy value from another source and paste into WinRecs no longer will 2 different Copy/Paste windows will display.

PR_26874 Record Count Description in Purge

The record counts display in the purge module has been updated to include 'records', to make it more clear what the count value is for.

[WinRecs3\Tools\File Management\CIHI Submission](#)

PR_25136 Complete Reverify automatically removes values in disabled fields

In File Management a new field called 'Keep Disabled Values' has been added. When this option is checked and a Batch Verify is performed when there are values in disabled fields, it will give user an option to review the abstracts.

[WinRecs3\Modules\Abstracting](#)

PR_25214 Copy in Abstract creating 2 pop up windows for copy function - request to have only one

The copy function in the abstract was not working selecting copy there appeared 2 pop up windows

This has now been resolved

there will now only show one menu when the field is disabled the function will rely on the built-in gird menu to pop up

This means that the filed needs focus and the entry box is set up a click in the field then a right click might be necessary

PR_25467 Lock Down Date- Abstract's Message Prompt

If a visit is past the lock down date, the applicablemessage will now prompt as soon as you open the abstract.

PR_26890 3M Bridge Intervention Date/ Times Not Coming Across

The fields Episode Start Date/Time and Episode End Date/Time have now been added for NACRS, to be sent to 3M. Previously these fields were only sent for DAD.

| |
|---|
| <u>WinRecs3\Options\User Profile</u> |
|---|

PR_25221 User Profile F4 Search on User Description

In User Profile, now able to F4 search on User Description

| |
|--|
| <u>WinRecs3\Reporting\Views</u> |
|--|

PR_25416 Request for File Create History view

A new Crystal View called Field Create History_VR has been created. This view contains the SubmissionType, ProcessDate, ProcessTime, Coder and zzAbstractLink. This view would link to the I10_Abstract and I10_Amcare views to display the File Create History for the abstract.

PR_26886 Crystal Field - Application Field

Crystal field Application filed view changed

This has been corrected and now displays like this

PR_26914 Add Other System Chart Number and CCRS Other System MRN fields to crystal views

The OtherSystemMRN field was added to multiple crystal views for MDS,OMHRS and Rehab.

| |
|--|
| <u>WinRecs3\Modules\Chart Maintenance\[LOC] Chart Locator</u> |
|--|

PR_25442 Select Chart(s) for locator highlight chart does not select must put check mark

In Chart Locator can highlight or use checkmark to select chart(s).

PR_25472 Pull List displays Expected Return Date warning

It will no longer display a warning the 'Expected Return Date is set after the current date' when transaction type is P-Pull List.

WinRecs3\Tools\File Management\NACRS

PR_25457 Level 2 Submission File - Grouper values display on saved records

Grouper values are populating the submission file on saved records when a site does not have a CACS grouper triggering CIHI warnings. This ticket will remove those values from submission file.

WinRecs3\Reporting\Report Manager

PR_25475 Report Manager to put report list in Alphabetical order

In Report Manager, when click on Column 'Report Name', it will put the list in Ascending or Descending order by name.

WinRecs3\Maintenance\Lookup Code Maintenance

PR_25479 Add Decimal to U50 and U51 User Code

Add Decimal to U50 and U51 User Code the decimal be added to the U50 & U51

The Validate Code will remain the same as the decimal is not accepted in submission file. Only the USER code will have a decimal added

PR_25482 Fiscal 2024 DAD Institutions and Types V1.13 May 2025 and Fiscal 2025 DAD Institutions and Types V1.5 May 2025

Fiscal 2024 DAD Institutions and Types V1.13 May 2025 and Fiscal 2025 DAD Institutions and Types V1.5 May 2025 have been included in this update

PR_25480 OMHRS - Copy of Previous Assessment

OMHRS copy of Previous Assessment customization requested

When auto copy is turned off in inst profile, still let users click the button manually.

PR_26975 Re-Set File Create Status for OMHRS/CCRS creating Medication Record in submission file

A medication record will no longer get created in the submissionfile after the file create status of an OMHRS or CCRS assessment is reset (unless applicable).

PR_27002 OMHRS Assessments with 'Is Complete'= E or N Status - Unable to Open

Unable to access OMHRS assessments with an "IS Complete "E or N Status

This is now resolved

WinRecs3\Modules\Abstracting\[DAD] AbsCare Inpatient

PR_25485 DAD Error 10 01 54 Generating Incorrectly

This DAD core edit 10 01 54 was not firing correctly

If institution type is acute (1) and diagnosis type is 2 (excluding diagnosis codes with the first character='O') and there is at least one intervention episode location code 01 or 08

or (OOH indicator='Y' and OOH intervention codes in 3IP10, 1IJ50, 1IJ57), diagnosis prefix must be 5, 6 or J

Also entering the following information created a hard error

enter Dx Prefix 5 or 6 to either of the dx codes with DX Type 2 I get the following incorrect hard edit:

Both edit errors have been fixed in this release

PR_26653 Transfer Worksheet Transfer Days missing

Transfer Worksheet Transfer Days missing

This is now corrected The last row is now populating like it should

PR_26896 Interfaced Field Values Disappearing

In a mother's abstract: When values are interfaced into the Maternal/Newborn Chart Number field, populating the Admit Category field will no longer erase its value.

In a newborn's abstract: When a value is interfaced into the Health Care Number field, populating the Abstract Type with the value of "4 - Newborn" will no longer erase its value.

WinRecs3\Modules\Abstracting\[NACRS] Level 3 AmCare Ambulatory

PR_26603 Incorrect anaesthetic edit populating when no interventions entered

An incorrect edit that was being generated in the NACRS module when no interventions had been entered has been corrected.

PR_26934 Institution Number field is disabled

When an abstract is accessed, the Institution Number will remain enabled for editing.

PR_26968 Warning message when O04.9 and O35.809 combination

In Diagnosis screen when enter O04.9 Main Diagnosis and O35.809 as other diagnosis, NO warning message will display in message list box.

WinRecs3\Tools\File Management\DAD

PR_26825 DAD File Creation- incorrect "this batch period is being accessed" message post 2025.02 update

When creating a submission file, a "this batch period isbeing accessed" message was prompted if a Batch Verify was used before the FileCreate. This has been corrected, and logging off is no longer required after running a Batch Verify.

WinRecs3\Tools\Batch Grouper

PR_26839 Institution Numbers in Batch Grouper Not Displaying Based on Care Type

The Batch Grouper tool now properly displays Institution Numbers based on the Care Type of the corresponding module.

PR_26840 Batch Grouper Institution Filtering Based On Hospital Links

Institution Numbers now properly appear as options in the Institution Number dropdown in Batch Grouper, based on the assigned Profile Links.

PR_26878 Batch Grouper-unable to select same date as previous Institution ran

In the Batch Grouper module, you are now able to select thesame date as the previous Institution that was run.

WinRecs3\Modules\Clinical\[NRS] National Rehabilitation Reporting System

PR_26879 NRS: Elements 54A Comprehension Mode and 55A Expression Mode Copying to Discharge

NRS: Elements 54A Comprehension Mode and 55A Expression Mode Copying to Discharge

This is now corrected the fix will stop importing the Comprehension-Mode & Expression-Mode fields when defaulting if

The institution has Yes option for Copy Data from Latest Assessment in the Institution Profile. then elements 54A and 55A will not be copied from Admission assessment when Discharge assessment is created and when Reason of the Discharge is 1.

PR_26986 Incorrect Look Up Descriptions for Locomotion: Walk/Wheelchair

Locomotion: Stairs and Locomotion: Walk/Wheelchair no longer share the same Look Up table in the NRS module. Updated Look Up Descriptions have been added to the Locomotion: Walk/Wheelchair table, based on the NRS Manual.
