

Release Notes for WinRecs Version 303.1.0

Release Date: June 25, 2026

The 303.1.0 Fiscal Release includes 2026 CIHI Table Updates.

This release is cumulative only after the most recent WinRecs Update has been applied however the update must be applied on minimal version **303.0.0** or greater.

Important:

After all updates have been applied sites with CACS and/or CMG groupers should have all coders check to ensure they can see grouper values in the visits. For Citrix clients this should be confirmed on all Citrix IP addresses. If grouper values are not displaying on a workstation/s please go to <https://files.med2020.ca/Downloads/Winrecs2/Tools/REGASM/> and download the file called regasm.zip. Extract the file to the desktop/s of the affected computer/s. Double click the file; a black window will flash, and the process is complete. This will register the grouper dll.

For additional information on this, or previous releases, contact MED2020 Customer Support at <mailto:support@med2020.ca>.
