Release Notes for WinRecs Version 295.1.1

Release Date: May 29, 2018

This release must be run on WinRecs installations that are on *version 295.1.1* and includes:

Important:
After all Fiscal Releases and Service updates have been applied coders should check to ensure they can see grouper values in the visits. For Citrix clients this should be confirmed on all Citrix IP addresses.

For additional information on this, or previous releases, contact MED2020 Customer Support at support@med2020.ca.

Table of Contents

Ticket Details

AmCare (NACRS)

PR-1265   **Intervention 5PC80JK**

When O086* was entered as main or other problem in combination with main/other intervention the following incorrect hard error generated:

If Main Intervention is 5PC80JJ or 5PC80JK, then Main or Other problem O71301, O71304 or O086- must also be coded
If Other Intervention is 5PC80JJ or 5PC80JK, then Main or Other problem O71301, O71304 or O086- must also be coded

This has been resolved.

CACS

PR-1266   **CACS Box Missing**

A permissions issue caused the CACS Box to be removed for some NACRS Level 3 clients (Ontario excluded). This CACS box will be restored.

Edits Management Tool (EMT)

PR-1260   **Edits Management Tool (EMT): Weight in kg Error**

When creating a Field Condition using the Weight (kg), if the field condition was in the correct range an incorrect hard edit was generating. This has been resolved.

Full System

ED-1263   **M_Login Table: Invalid Password**

Invalid passwords at login were previously stored in plain text, they will now be encrypted for improved security measures.

ED-1268   **Invalid Password Login - Workstation**

M_Login Table: On 295.1.1 any failed login attempts will now show the workstation.
