

Release Notes for WinRecs Version 2026.03

Release Date: June 12, 2026

The 2026.03 Fiscal Release includes 2026 Updated CIHI tables, fixes for reported issues as well as enhancements.

Important:

For IRRS clients there is a grouper update - please regroup data after the update for the newest methodology.

This release is cumulative only after the most recent WinRecs Update has been applied however the update must be applied on minimal version **2025.01** or greater.

For additional information on this, or previous releases, contact MED2020 Customer Support at <mailto:support@med2020.ca>.

Ticket Details

WinRecs3\Modules\Abstracting

PR_24704 Multiform Count Display

The count displayed on the main grid will now reflect the total number of line entries within the multiform.

PR_27645 Patient Service Days Not Calculating Correctly

WinRecs was incorrectly calculating transfer service days - the calculation is now working correctly.

WinRecs3\Reporting\Views

PR_27288 Sec_Purged_Information_VR Delete and Purge Time returns blank

When using the Sec_Purged_Information_VR the Delete Time and Purge Time return the time value.

PR_27304 Request to Add Coder Number and Hospital Link to Sec_LoginAudit_VR

CoderNumber, *CoderName*, and *Hospital* fields have been added to the **Sec_LoginAudit_VR** view.

PR_27308 Update Coder in RelOIUpdateHistory_VR showing blank

When running a report using the RelOIUpdateHistory_VR, the UpdateCoder field was showing blank. This view has been corrected, and the coder information will now populate.

PR_27394 CareType missing 10_AbtractingBasic1_VR

CareType has been added to the 10_AbtractingBasic1_VR.

PR_27479 I10_AbtractRecordKey_VR displays blank Admit and Discharge NurseAreaUnitLoc

When using the I10_AbtractingRecordKey_VR the AdmitNurseAreaUnitLoc and DischargeNurseAreaUnitLoc fields no longer displays blank.

PR_27691 Rehab_ByElementID View

A new view called Rehab_ByElementID_VR is available in this release.

PR_27710 I10_Submission_VR - Batch Number not populating

The Batch Number in I10_Submission_VR was not populating in Crystal reports. This will now display.

WinRecs3\Utilities\Abstract Queue

PR_27328 Abstract Queue - Selecting Single Date Range Resetting to Today's Date

When using Abstract Queue and selecting a single date range, at times the Date To would reset to today's date. An additional fix has been put in place to prevent this from occurring.

WinRecs3\Tools\File Management\CIHI Submission

PR_27330 Contact Information Files for NRS and MHRS not generating errors when verifying and creating file

When creating Contact Information Files for NRS and MHRS, errors will now generate if there are mandatory fields not filled out.

WinRecs3\Modules\Clinical\[IRRS] Integrated interRAI Reporting System

PR_27613 IRRS User Permission 'New' Adjustment

A change has been made for a user profile setting when it is not set to not allow new records to be created by a user. Now when a user clicks the new button, they will receive a pop up asking them if they would like to save the current record they are in. In addition, the current record being worked on will remain loaded when the prompt is completed.

PR_27619 IRRS: Incorrect Edit for Home Services Scheduled (R3)

R2 Residential Living Status After discharge = 16 (deceased) and R3 Home Care Services Scheduled at Discharge = 0 the following incorrect edit was generating:

Home Care Services scheduled at discharge if person is deceased (R2 = 16) then person cannot have Home Care Services scheduled at discharge (R3 = 0 or blank).

This edit will now only generate if R3 = 1.

PR_27622 IRRS: Script to remove N/A data element values in Discharge Tracking assessment submission

When sending in Discharge Tracking assessments to CIHI, records were getting rejected stating "Data element is not applicable for this assessment type." This has been corrected, and the submission will send in NULL instead of 0.

PR_27646 RUG-III-plus-group-meth-2026-v1-1-en

RUG-III-Plus Grouper newest methodology is included in this release. **Sites should regroup all assessments to apply newest methodology.**

PR_27740 IRRS Return Conversion Encounter Number

When changing a First Assessment to a Return Assessment link to a DC first, the encounter number gets changed to the one associated with the previous visit. Assessments can now be linked to a previous encounter while keeping the current encounter number.

PR_27741 IRRS Submission Viewer Error Display Adjustments

The following changes were made to the IRRS Submission Viewer Error Display:

- 1) Error message was being truncated. The header can now be widened.
- 2) When right clicking on Display Error message a copy message option is now available.

PR_27755 IRRS Return Change Link Date Stay Began

When a Return Assessment is linked to a previous encounter the software will now update the Date Stay Began from the link ID rather than the encounter ID.

WinRecs3\Modules\Abstracting\[NACRS] Level 3 AmCare Ambulatory

PR_27618 NACRS Element 51 Duration of Ambulatory Care not Calculating Correctly for Unknown Times

When intervention start time and end times have been entered with actual times the duration calculates correctly. However, if the Intervention start time or Intervention End time or both were changed to 9999 it retained the original value in duration which should have changed to 9999. This issue has been corrected.

PR_27652 Unable to select Enter Key to exit "Abstract Clone successful" window

The Enter Key on the keyboard was not functioning correctly in the pop-up messages. This has been fixed, and the Enter Key can now be used to close the window or select Yes.

PR_27690 Ambulatory Registration Number not auto-generating With Defaulted Facility Number

The Ambulatory Registration Number was not auto-generating when facility number was defaulted. This has been corrected so if the auto-generate encounter number feature is

turned on, it will now work when facility number is defaulted.

WinRecs3\Maintenance\Lookup Code Maintenance

PR_27628 Fiscal 2025 DAD Institutions and Types V1.13 Mar 2026 and Fiscal 2026 DAD Institutions and Types V1.3 Mar 2026

Fiscal 2025 DAD Institutions and Types V1.13 Mar 2026 and Fiscal 2026 DAD Institutions and Types V1.3 Mar 2026 is included in this release.

PR_27630 Fiscal 2025 DAD Institutions and Types V1.14 Apr 2026 and Fiscal 2026 DAD Institutions and Types V1.4 Apr 2026

Fiscal 2025 DAD Institutions and Types V1.14 Apr 2026 and Fiscal 2026 DAD Institutions and Types V1.4 Apr 2026 is included in this release.

PR_27634 emergency-department-intervention-value-set-v2.6-en-web-a.xlsx

The emergency-department-intervention-value-set-v2.6-en-web-a.xlsx has been included in this release.

PR_27636 canadian-emergency-department-diagnosis-shortlist-v8.4-en-web-a

The canadian-emergency-department-diagnosis-shortlist-v8.4-en-web-a update has been included in this release.

PR_27724 Fiscal 2025 DAD Institutions and Types V1.15 May 2026 and Fiscal 2026 DAD Institutions and Types V1.5 May 2026

Fiscal 2025 DAD Institutions and Types V1.15 May 2026 and Fiscal 2026 DAD Institutions and Types V1.5 May 2026 is included in this release.

WinRecs3\Maintenance\Project Maintenance

PR_27632 DAD Project 225 Update

The dad-project-225-private-clinic-institution-number-en-web April 2026 update is included in this release.

91037 removed from the BC private clinic institution number listing

WinRecs3\Reporting\Report Maintenance

PR_27641 IRRS set up in Report Menu

Report Manager will now show IRRS report in IRRS module

WinRecs3\Modules\Clinical\[NRS] National Rehabilitation Reporting System\[NRS-D] Discharge

PR_27650 NRS Discharge- Locomotion Walk/Wheelchair Mode Error

The NRS error “if (52A) = 3 on Admission, then (52A) must =1 or 2 on Discharge” was generating even when the correct value was entered, and selecting F11 was the only way to clear it. This has been fixed and the message will now clear without having to select F11.

WinRecs3\Tools\File Management\NRS

PR_27661 NRS - Follow Up - Submission File Length Wrong

The Follow Up in the NRS Submissions had the wrong file length. This has been corrected.

WinRecs3\Tools\[EMT] Edits Management Tool\EMT

PR_27688 EMT Edits Not Populating with Values

Custom edits created via EMT will now populate with field values from the abstract as expected.

WinRecs3\Modules\Abstracting\[NACRS] Level 0 (Clinic Lite) AmCare Ambulatory

PR_27711 NACRS Level 0 Submission Edit Library Verify

In NACRS Level 0 Submissions, under Edit Library Verify, when Both is selected (system and custom edits) it showed no valid records where there were valid records. This issue has been resolved.

WinRecs3\Reporting

PR_27738 Central_Patient_Address_VR Linking

The zzPatientLink field has been added into the Central_Patient_Address_VR.

WinRecs3

PR_27747 IRRS Modify Edits Related to Discharge Fields

Incorrect hard Edits were generating for R4 Discharged to Facility Number in non-applicable assessments. This issue has been resolved.
