Ticket Details

WinRecs3\Reporting

PR_21955 Sec_submission Audit not displaying name of file or record number

Sec_Submission Audit was not displaying the "Name of File" or "Record Count". This issue has been resolved.

Note: These two fields will only work on submission files created on this build or later builds.

WinRecs3\Utilities\Abstract Queue

PR_21964 Abstract Queue: Filter Drop Down List

Users can now filter the following combo boxes in Abstract Queue: Institutions, Disposition Code, Main Service, Providers and Discharge Nursing Area and Coder if the user is an administrator. If the user is not an Admin, instead of a combo box, a label will be displayed with the users name.

WinRecs3\Utilities\EMT

PR_21977 EMT: Abstract Notes Edits

Can now create edits that include the Abstract Notes. Two operators have been created called 'Had Note' and 'Has Note Value'. More than one value can be added by separating the values with a semi-colon.

PR_22200 Logical Same Multiple Occurrence Group Not Retaining

When creating a Logical Condition and selecting "Same Multiple Occurrence Group" the Same Multiple Occurrence Group did not retain after exiting Logical Condition.

PR_22249 CMG EMT Edits Not Clearing on Batch Verify

CMG EMT Edits will not clear on Batch Verify.

WinRecs3\Abstracting\DAD

PR_22206 DAD CJRR Screen: No Identifying Information

The following will now display in the CJRR Form: Joint ID, Intervention, Location, Hip/Knee and Intervention Date

PR_22208 Grouper values Format

CMG weights will now display as 1 digit and 4 decimals #.#### (leading zeros removed) and ELOS will display as 1 digit and 1 decimal #. # (leading zeros removed).

WinRecs3\Abstracting\NACRS

PR_22209 NACRS Revision Reason Enabled for Other Interventions

Revision Reason is now disabled until intervention code is: 1.VA.53.^ or 1.SQ.53.^ or 1.VG.53.^ or 1.VP.53.^ and Attribute Status <> A-Abandoned after onset.

PR_22285 Missing Edit for Physician Initial Assessment time of 99:99

Error 11612: Date Patient Left ED must be after or equal to Date of Physician Initial Assessment if Date of Physician InitialAssessment is coded and Time Patient Left ED or Time of Physician InitialAssessment is = 9999 was not generating when Time of Physician InitialAssessment = 9999. This has been resolved.

WinRecs3\CPI

PR_22215 Chart Merge Not Showing Patient Names

When doing a chart merge the Source Chart Number and Target Chart Number will now display the patient's name.

WinRecs3\Administration\Lookup Maintenance

PR_22226 Fiscal 2024 DAD Institutions and Types V1.2 Mar 2024

Fiscal 2024 DAD Institutions and Types V1.2 Mar 2024 is included in this update.

WinRecs3\Reporting\Views

PR_22230 I10_AllAbstractingGeneral1_VR IsAbstractValidated Returning Incorrect Values

I10_AllAbstractingGeneral1_VR: The IsAbstractValidated field was returning incorrect values for Amcare visits.

The I10_AllAbstractingGeneral1_VR will now return the following values:

Y, E, W or N for IsAbstractValidated, IsCompleted

Y, N for IsSubmitted

PR_22235 I10_Amcare_Level1_VR returning MIS codes not Emergency

I10_AllAbstractingGeneral1_VR was returning MIS code that were not Emergency MIS Codes. The view has been modified to return only those cases where Amcare Group = E.

PR_22236 I10_Amcare_VR Submission Level Code returning System value

I10_Amcare_VR Submission Level Code was returning System value - the view has been modified to return 1, 2 or 3 level codes.

WinRecs3\CPI\Chart Deficiency

PR_22239 F5 New Deficiency Returns Combination Chart Numbers

In Chart Deficiency, when F5 create a new deficiency and enter the Chart Number, the list of charts numbers will return the EXACT chart number and chart numbers that START WITH the number entered.

WinRecs3\Abstracting\NACRS\L3

PR_22245 Error #45b30 Not Generating With Multiple J44* COPD Diagnosis Codes

When Multiple J44* COPD Diagnosis Codes were entered the following error was not generating in Amcare: Error #45b30 Multiple J44 COPD Diagnoses. The error will now generate.

PR_22247 Error #5301 Anaesthetic Technique Not Generating

Error #5301 Anaesthetic Technique will now generate when Anaesthetic Technique is blank.

PR_22289 Error Diagnosis A00-T98, U07.3 Diagnosis Prefix 7 Not Clearing

The following edit was generating incorrectly when Main Diagnosis or Other Diagnosis had Diagnosis Type 7 and Other Diagnosis code U07.4

Main/Other Problem A00-T98 or U07.3 with Main/Other problem Prefix 7 is mandatory.

This error will no longer generate for this scenario.

WinRecs3\Utilities\CIHI Submission

PR_22246 File Management - Care Types Level 1 and 2 Submissions

In File Management, Care Types were displaying that were not applicable to Level 1 and Level 2 submissions. These care types have been removed and only the following care types will display:

BE Emergency

BC19 Covid 19 Cases

B-E-O Opioid Case

PR_22279 Level 1 NACRS Opioid Submissions

When running Level 1 Opioid submission verify it was including all Level 1 cases. This has been corrected to ensure only Opioid Cases are included in the batch verification when Care Type = "B-E-O-Opioid Cases".

PR_22287 NACRS Submissions Saving to Same Folder

All NACRS submission files were being created in the same folder. This has been corrected so the submission file will be created in the folder for the submission Level.

PR_22290 Submissions: Include Batch Period Descriptions

Batch Period Descriptions have been added in Submissions.

WinRecs3\Abstracting\MHRS**PR_22298 OHMRS 2024/25 Edits Generating on 2023/24 Records**

2024 Fiscal Edits were generating on 2023 Assessments. This issue has been resolved.
