

# Release Notes for WinRecs Version 2024.02.65

Release Date: August 7, 2024

This release is cumulative only after the most recent WinRecs Update has been applied, however the update must be applied on minimal version 2024.01 or greater.

**Important:** Clients with the CCRS module should regroup all data after applying this update. See Ticket 22498.

## Table of Contents

### WinRecs3\Administration\Lookup Maintenance

- [PR\\_22409](#)      Default Intervention Location per MIS Code
- [PR\\_22421](#)      Defaults for Institution From/Referred to Combinations
- [PR\\_22480](#)      Fiscal 2024 DAD Institutions and Types V1.4 May 2024
- [PR\\_22493](#)      Lookup Maintenance Validate Code Display Length

### WinRecs3\Administration\User Profile

- [PR\\_22499](#)      Add option In User's Profile To hide Field Status Indicator in Multiform

### WinRecs3\Utilities\Abstract Queue

- [PR\\_22651](#)      Abstract Queue Coder List Not Refreshing After Save

### WinRecs3\Chart Maintenance\[CPI] Central Patient Index\CPI\Chart Deficiency

**PR\_22668**      Deficiency Provider Not Defaulting Main Service

### WinRecs3\Abtracting

**PR\_22420**      Highlight Unknown Time Fields

**PR\_22517**      3M Bridge Add Institution Out Field

### WinRecs3\Abtracting\DAD

**PR\_22459**      DAD Special Project 225 Update

### WinRecs3\Abtracting\NACRS

**PR\_22433**      3.AN.40.VA Attribute Status Does Not Enable

**PR\_22484**      CJRR Intervention Revision Reason "6" Generates Hard Error

**PR\_22643**      Skip Over Multiforms when Not Valid for Abstract

**PR\_22647**      CJRR NACRS Edit Missing J07A02 - Component numbers must be unique

**PR\_22662**      Values Removed From Referred From And Institution From Fields

**PR\_22671**      Incorrect Error Message: Institution To Must Be Blank if Visit Disposition = 01

### WinRecs3\Modules\Abtracting\[CCM] Cancer Care Module

**PR\_22506**      Add Smoking Cessation Fields to Cancer Care and New CCM  
Entity\_SmokingCessation\_VR

### WinRecs3\Modules\Clinical\[MHRs] Mental Health Registry System

**PR\_22453**      OMHRs: Invalid Edits for X8a to X8c Triggering on Full and Quarterly  
Assessments

### WinRecs3\Modules\Clinical\[MDS] Continuing Care Reporting System

**PR\_22498**      Fractured Risk Scale and Pressure Risk Ulcer Scale Not Calculating in CCRS

**PR\_22509**      Program Type: Autopopulate Into Other Assessments

### WinRecs3\Reporting\Views

- PR\_22478**      R\_BatchVerifyErrorsWarnings;1 Displaying all Institution, Batch Year and Period after Batch Verify
- PR\_22491**      'Chief Complaint' missing I10\_AllAbstractingGeneral1\_VR
- PR\_22512**      I10\_AllAbstractingGeneral1\_VR: Add Universal Episode Identifier
- PR\_22641**      Add MaternalNewbornChartNumber and MaternalNewbornDischargeDate to I10\_AbtractingGeneral\_VR
- PR\_22665**      WR3 Merge\_Main\_VR Shows Blank for Chart Number From/TO For Unmerges

### WinRecs3\Utilities\CIHI Submission

- PR\_22472**      CCRS: Older Year File Not Getting Created
- PR\_22494**      DAD FIF File: Add Scroll Bar
- PR\_22503**      CCRS Contact Information: Incorrectly Populating 0 in External Contact 1 and Contact 2

## **Ticket Details**

### WinRecs3\Administration\Lookup Maintenance

- PR\_22409**      Default Intervention Location per MIS Code
- A new field has been added in Look Up Maintenance for NACRS to default Intervention Location when specified for a specific MIS Code.
- PR\_22421**      Defaults for Institution From/Referred to Combinations
- A new feature has been added that will allow the Institution From to default the Institution To (in DAD & NACRS) and the Referral Source to default the Referred To (in NACRS). This can be set up in Look Up Maintenance.

**PR\_22480      Fiscal 2024 DAD Institutions and Types V1.4 May 2024**

Fiscal 2024 DAD Institutions and Types V1.4 May 2024 and Fiscal 2023 DAD Institutions and Types V1.12 May 2024 update has been included in this release.

**PR\_22493      Lookup Maintenance Validate Code Display Length**

The validate code in LU Maintenance for disposition code was displaying as 1 character in length. The following validation field lengths have been changed to display as 2 characters in length:

DAD & SDS - Discharge Disposition (2 digits)

Cancer Care - Disposition Code (2 digits)

**WinRecs3\Administration\User Profile**

**PR\_22499      Add option In User's Profile To hide Field Status Indicator in Multiform**

An option has been added in User Profile to allow the user to hide the row that shows the Field Status Indicator within a multiform. This can be done by selecting the Settings/Options tab in User Profile and unchecking the Show Multiple Occurrence Status Row box.

**WinRecs3\Utilities\Abstract Queue**

**PR\_22651      Abstract Queue Coder List Not Refreshing After Save**

When coding an abstract as selected from the Abstract Queue Coder List, the list did not refresh after the chart was coded and saved once. This has been corrected so the list will refresh immediately once an abstract has been coded and saved.

**WinRecs3\Chart Maintenance\[CPI] Central Patient Index\CPI\Chart Deficiency**

**PR\_22668      Deficiency Provider Not Defaulting Main Service**

In Chart Deficiency the Providers Main Patient Service was not defaulting. This has been corrected.

### WinRecs3\Abtracting

#### **PR\_22420 Highlight Unknown Time Fields**

A new feature has been added to all modules for 99:99 (unknown) time fields. These fields will now display in red.

#### **PR\_22517 3M Bridge Add Institution Out Field**

Added a field into institution profile called '3M Interface out'. When this field has a value, send this value to 3M as the institution number. This allows values to be used that are different from the CIHI value. By default, this field is set to the CIHI value.

### WinRecs3\Abtracting\DAD

#### **PR\_22459 DAD Special Project 225 Update**

Special Project 225 has been updated to allow one new BC Institution number of 91058.

The following BC Private Clinic Numbers can no longer be used:

91031 91032 91033 91035 91036 91043 91044 91045 91046 91047

### WinRecs3\Abtracting\NACRS

#### **PR\_22433 3.AN.40.VA Attribute Status Does Not Enable**

The attribute status did not enable when intervention code 3.AN.40.VA was entered. This issue has been resolved.

#### **PR\_22484 CJRR Intervention Revision Reason "6" Generates Hard Error**

The attribute status did not enable when intervention code 3.AN.40.VA was entered. This issue has been resolved.

**PR\_ 22643      Skip Over Multiforms when Not Valid for Abstract**

A new feature has been added that will skip over multi-forms in the abstract when not applicable.

The following multi-forms have been updated:

- Presenting Complaints
- Discharge Diagnosis Data (ED)
- ED Intervention Pick List
- ED Intervention Technology Lists
- Emergency Department Intervention Value Set

**PR\_ 22647      CJRR NACRS Edit Missing J07A02 - Component numbers must be unique**

Edit J07A02 was not triggering when the same component numbers were entered in separate CJRR occurrences. The edit will now trigger when the same component numbers are entered.

**PR\_ 22662      Values Removed From Referred From And Institution From Fields**

If Referred From and Institution From fields had a value in them these values were removed when values were entered into the Referred To and Institution To Fields. This issue has been resolved.

**PR\_22671      Incorrect Error Message: Institution To Must Be Blank if Visit Disposition = 01**

The following Incorrect error was generating when Visit disposition 16 was entered and Institution To field had a value entered:

Institution To must be blank if Visit Disposition = 01.

This incorrect error will no longer generate.

**WinRecs3\Modules\Abstracting\[CCM] Cancer Care Module**

**PR\_ 22506      Add Smoking Cessation Fields to Cancer Care and New CCM  
Entity\_SmokingCessation\_VR**

The following smoking cessation fields for CCO have been added as follows:

**Add new session in NACRS: CCM Smoking Cessation**

**Add new field in NACRS: CCM Smoker/tobacco in the past 6 months**

**Lookup values:**

**1 = Yes**

**2 = No9 = Refusal/Don't Know**

**Add new fields in NACRS: CCM Advised of smoking cessation benefits**

**Lookup values:**

**1 = Yes**

**2 = No**

**Add new fields in NACRS: CCM Selected/declining referral by patient**

**Lookup values:**

**1 = Internal**

**2 = External**

**3 = Both**

**4 = Declined: Not interested**

**5 = Declined: receiving support**

**6 = Declined: quit smoking**

**A new view has been created called CCM\_Entity\_SmokingCessation\_VR which can be used to create submission record.**

**Modify view: I10\_AmCare\_CCM\_VR to add three new columns:**

**SmokeAsked = CCM Smoker/tobacco in the past 6 months**

**SmokeAdvised = CCM Advised of smoking cessation benefits**

**SmokeReferraAction = CCM Selected/declining referral by patient**

**WinRecs3\Modules\Clinical\[MHRS] Mental Health Registry System**

**PR\_22453** OMHRS: Invalid Edits for X8a to X8c Triggering on Full and Quarterly Assessments

Invalid Edits for X8a to X8c Triggering on Full and Quarterly Assessments. These fields are only applicable to the Discharge and Short Stay Assessments. These fields will remain enabled but no longer mandatory.

### WinRecs3\Modules\Clinical\[MDS] Continuing Care Reporting System

**PR\_22498** Fractured Risk Scale and Pressure Risk Ulcer Scale Not Calculating in CCRS

Fracture Risk Scale and Pressure Risk Ulcer Scale was not calculating correctly in CCRS.

**IMPORTANT: All Sites should regroup CCRS data after applying this update.**

**PR\_22509** Program Type: Autopopulate Into Other Assessments

The Program type will now default the value in the Admit Background assessment to other associated CCRS assessments.

### WinRecs3\Reporting\Views

**PR\_22478** R\_BatchVerifyErrorsWarnings;1 Displaying all Institution, Batch Year and Period after Batch Verify

After running a batch verify and running a report using R\_BatchVerifyErrorsWarnings;1stored procedure, the report is displayed all visits for all Institution Numbers including all Batch Year and Period that have errors and warnings in the database. The report will now only show the abstracts with errors or warnings for Institution Number, Batch Year, Batch Period the Batch Verify was run for.

**PR\_22491** Chief Complaint Field Missing From I10\_AllAbstractingGeneral1\_VR

Chief Complaint has been added to I10\_AllAbstractingGeneral1\_VR

**PR\_22512** I10\_AllAbstractingGeneral1\_VR: Add Universal Episode Identifier

Universal Episode Identifier has been added to the I10\_AllAbstractingGeneral1\_VR.

**PR\_22641** Add MaternalNewbornChartNumber and MaternalNewbornDischargeDate to I10\_AbstractingGeneral\_VR

**MaternalNewbornChartNumber and MaternalNewbornDischargeDate have been added to the I10\_AbstractingGeneral\_VR.**

**PR\_22665**      **WR3 Merge\_Main\_VR Shows Blank for Chart Number From/TO For Unmerges**  
  
**When using the Merge\_Main\_VR Chart number from and Chart Number to Fields return no values when the Update Type = Unmerged. This has been fixed and values will now return.**

### **WinRecs3\Utilities\CIHI Submission**

**PR\_22472**      **CCRS: Older Year File Not Getting Created**  
  
**When creating a submission and batch year = 2019 and Clinical year = current year an empty submission file was created. This issue has been resolved.**

**PR\_22494**      **DAD FIF File: Add Scroll Bar**  
  
**Scrollbars have been added to the DAD, SDS and NACRS Facility Files.**

**PR\_22503**      **CCRS Contact Information: Incorrectly Populating 0 in External Contact 1 and Contact 2**  
  
**The CCRS Contact information file was populating a 0 for Field (Z44) External Data Submission Contact 1-Auto Notification and Field (Z54) External Data Submission Contact 2-Auto Notification - start positions 358 and 480 in the Contact Information File. This issue has been resolved.**
